

PROVIDE A PASSION FOR LEARNING

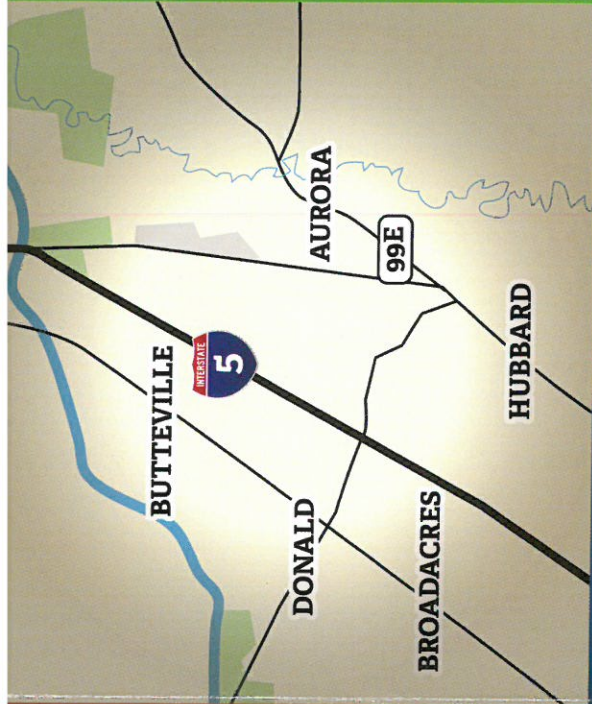

The North Marion School system serves nearly 2,000 students. A majority qualify for free meals during the school year and throughout the summer. This area's economy is supported by agriculture service, small businesses, and manufacturing, and the economic downturn has taken a toll on our people.

We're not a community of great means. However, our citizens have a passion for learning and desire the many benefits of a strong community library.

GROW OUR COMMUNITY

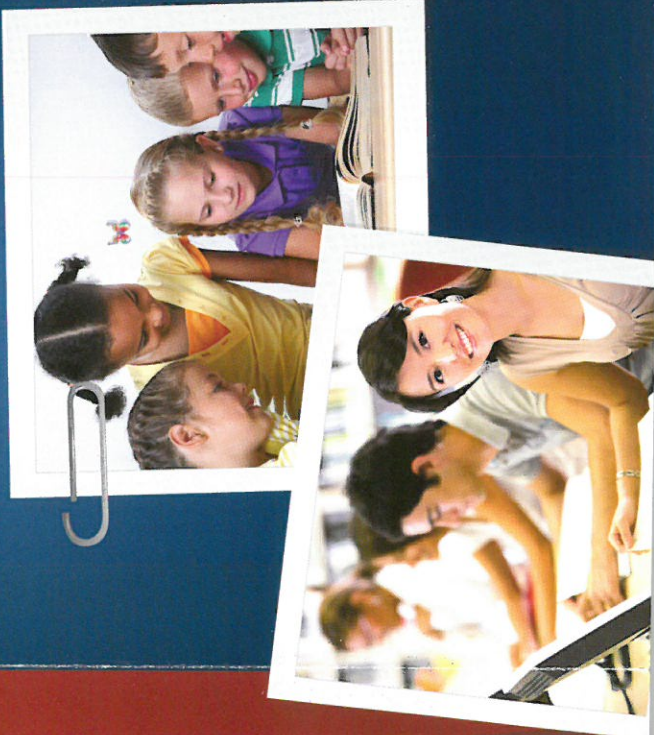

Libraries are neither extravagant nor wasteful. Rather, libraries grow communities through a focus on education, literacy and cooperation. Libraries build imaginations and possibilities.

WITH LIBRARIES COME INCREASED GRADUATION RATES, EMPLOYMENT RATES AND A GREATER PERCENTAGE OF COLLEGE-BOUND STUDENTS.

BUILD A PARTNERSHIP

Our 501(c)(3) non-profit organization is looking to build a partnership in learning with area businesses and individuals. Our library board of committed volunteers is actively seeking financial and in-kind donations to build the North Marion Community Library.

THE NEW

NORTH MARION

COMMUNITY LIBRARY

**CONNECTING OUR
COMMUNITIES
THROUGH LITERACY
RESOURCES**

Our community is made up of five small towns: Hubbard, Aurora, Donald, Broadacres and Butteville. This region is not served by existing libraries; many of our neighbors simply go without. As a result our young population will grow up not knowing the sense of community and foundation of knowledge that exists within the walls of a simple public library.

North Marion Community
LIBRARY

Connecting our communities for
a lifetime of learning.
